Subject: Re: SFTPBrowser example build failed
Posted by Oblivion on Fri, 20 Dec 2024 08:45:28 GMT

Quote:May be you can checking why EOF received? Is it caused by non-blocking socket & blocking socket different if compare with your SFTP and my company's SFTP server?
I have a suspicion, so I'll try to come up with a fix, but can you tell me the the size of the files that are failed to be uploaded? Do you encounter the same problem with file size >= 64K?

Best regards,
Oblivion
