Didier wrote on Sun, 02 March 2025 18:50The include paths for UppHub packages lacks the Package directory: it only points the UppHub nest directory

It was always this way. That is why we

```
#include <CtrlLib/CtrlLib.h>
```

and not just

```
#include <CtrlLib.h>
```

Doing ontherwise would cause a lot of troubles...

The change I have done is to remove unused nests.
