fallingdutch wrote on Wed, 01 November 2006 04:34the preview is wrong, too

just have a look at the new (complete) screenshot

Bas

OK, all colors seem to be correct EXCEPT for that pasted icon.

Therefore definitely looks like the bug in .bmp or .png decoder.

It would be interesting to find out which one

Could you please build debug version of ide and place some LOGs to ReadClipboardImage (CtrlCore/X11ImgClip.cpp) to find out whether it is .bmp or .png?

Are you running 32 bit or 64 bit ide?

Mirek
