Hi Mirek,

Using PADGen, I've prepared a very rough draft of a PAD xml file for Ultimate++.

It is based on information from http://www.ultimatepp.org.

I have attached the relevant screenshots of PADGen. Some of the form fields are still blank or filled with basic information. Could you please provide more specific information? See padtab1.jpg and padtab4.jpg.

I have also attached the draft upp.xml file for you to see how it looks like.

Thanks and best regards,
Yeoh
