Hi Mirek,

Using PADGen, I've prepared a very rough draft of a PAD xml file for Ultimate++.

It is based on information from <http://www.ultimatepp.org>.

I have attached the relevant screenshots of PADGen. Some of the form fields are still blank or filled with basic information. Could you please provide more specific information? See [padtab1.jpg](#) and [padtab4.jpg](#).

I have also attached the draft `upp.xml` file for you to see how it looks like.

Thanks and best regards,  
Yeoh
