
Subject: msdev 8.0 strange compiler error

I tried compiling something with the msdev 8.0 express (I also installed the SDK etc...) package. All the examples compile without any problems... But if I use a directory for my sourcecode which is different from the upp/exmples/ drectory I get the following compiler errors:

```
I : Command line warning D9024 : unrecognized source file type 'Files\Microsoft', object file assumed
```

```
cl : Command line warning D9027 : source file 'Files\Microsoft' ignored
cl : Command line warning D9024 : unrecognized source file type 'Visual', object file assumed
cl : Command line warning D9027 : source file 'Visual' ignored
cl : Command line warning D9024 : unrecognized source file type 'Studio', object file assumed
cl : Command line warning D9027 : source file 'Studio' ignored
cl : Command line warning D9027 : source file '8\VC\Include -ID:\MSplatformsdk\Include
-ID:\upp\SDL-1.
2.9\include -DflagGUI -DflagMAIN -DflagMSC8 -DflagDEBUG -DflagDEBUG_FULL -DflagBLITZ
-DflagWIN32 -
DflagMSC -DbmYEAR=2006 -DbmMONTH=11 -DbmDAY=3 -DbmHOUR=18 -DbmMINUTE=6
-DbmSECOND=54 -EHsc -Zi -M
Td -Od -Gy -FdD:/upp/out/ASCIIchar/MSC8.Debug_full.Gui.Main/ASCIIchar-1.pdb -Tp
M:\MyApps\ASCIIcha
r\main.cpp -FoD:/upp/out/ASCIIchar/MSC8.Debug_full.Gui.Main/main.obj' ignored
cl : Command line warning D9021 : no action performed
ASCIIchar: 1 file(s) built in (0:00.12), 125 msec / file, duration = 187 msec
Linking...
LINK : fatal error LNK1104: cannot open file
'D:\upp\out\ASCIIchar\MSC8.Debug_full.Gui.Main\main.obj'
```

Any help on this? I think what happens is, that the compiler does not recognize the visual studio 2005 express anymore. The Reason for this seems to be, that it doesn't know folder names can have 'spaces'...

jesus i've never had something as strange as this...
