just found another two things:

1. in DateTimeCtrl.cpp you define your IMAGEFILE local, that doesn't work for me, but "#define IMAGEFILE <DateTimeCtrl/DateTimeCtrl.iml>" does work

2. in Paint i get an Error on the line

```
String &s = DyName((i+1)%7);
```

it works with

```
String s = DyName((i+1)%7);
```

Bas
