```
bool URightCtrl::ShowSys(String id,String name)
{
    if(!odb().IsDbAlive())return false;

  USQLite3DB& data=odb().database();
  USQLite3Table tab;
  String sql="select syNQty,syCQty from System where syId="+id;
  try
  {
  tab=data.GetTable(sql);
    viewS1.m_Matrix.SetRowCol(atoi(tab.fieldValue(1)),((atoi(tab .fieldValue(0))) >>1));
  tab.finalize();
  }
  catch(USQLite3Exception &e)
  {
  PromptOK(e.errorMessage());
  tab.finalize();
  return false;
  }
 return true;
}
```

Without last "return true;" line,program claim a "Heap leaks detected" warning
caller is:

```
        if(!right->ShowSys(m_Tree1.Get(cursor),m_Tree1.GetValue(cursor)))
        {PromptOK("can't load Systems.");}
```
