Excluding the main package (anything can go wrong there), I see 2 errors:

C:\MyApps\UPPScintilla\src\Editor.cxx:3706: error: `SCN_POSCHANGED' undeclared (first use this function)

C:\MyApps\UPPScintilla\src\Editor.cxx:6857: error: `SCI_SETCARETPOLICY' undeclared (first use this function)

Most likely this looks like #define constants that are omitted for some reason.

Possible reason is that sources are not BLITZ friendly - I would try to deactivate BLITZ for the package first (in the Output mode).
