A simple testcase (in Reference/Report):

```
Vector<Point> poly;
```

```
poly<<Point(200,200)<<Point(700,200)<<Point(700,500)<<Point(200,500)<<Point(200,200);
```

```
r.DrawPolygon(poly,Cyan,2,Red,0,Null);
```

Andrei
