I have spend some time providing some comparison of U++ Core vs standard C++ library:

[http://www.ultimatepp.org/www\\$upweb2\\$vsstd\\$en-us.html](http://www.ultimatepp.org/www$upweb2$vsstd$en-us.html)

I would like if some STL expert would have checked my STL code if it is really the optimal solution. If this first pass is OK, I will try to submit the page to alt.lang.c++.moderated to further review (and then maybe we can make it an article).
