luzr wrote on Wed, 13 December 2006 21:47Do you want to say it worked on ubuntu 6.06?

I am not sure for Gnome, but for fluxbox: yes, it worked.

But now TheIDE crashes my X-Session when started within fluxbox so i can't figure out wether it worked on Ubuntu 6.06 and not on Ubuntu 6.10 (using fluxbox).

firefox and xterm do maximize on the second screen so i guess it is an problem related to TheIDE.

Bas
