zsolt wrote on Tue, 19 December 2006 00:42I'm testing upp_0.612.1-1_i386.deb, and found a problem:
Installer doesn't copy the tutorial directory to ~/upp/.

it does if ~/.theide does not exist. that is why i don't copy upp to ~/upp but use the /usr/share/upp dir, another effect is that your upp files are write protected
