Hi,

I've added "using namespace Upp;" to the project files in MyUppApp but there were several
compile errors. All were C2872.

I'm compiling using MSC8 Optimal build.

To "fix" it, I have made changes to:
1. iml_source.h
Line 63:
#define IMAGE_BEGIN_DATA { static const Upp::byte data[] = {

2. topic_group.h
Line 117:
#define COMPRESSED   static const Upp::byte data[] = {

The MyUppApp project now builds without any errors and runs okay.

Best Regards,
Yeoh
