Novo wrote on Thu, 21 December 2006 18:39If I decide not to use "using namespace Upp" but rather explicitly use namespace Upp I'm getting compilation error when trying to compile a simple code below.

```
class ufm : public Upp::TopWindow {  
public:  
    typedef ufm CLASSNAME;  
  
};  
  
GUI_APP_MAIN  
{  
    ufm().Run();  
}
```

The errors are:

that is only apply namespace to TopWindow as I know.
