Subject: Zoom In / Out Buttons for icon designer
Posted by darrs on Tue, 09 Jan 2007 19:27:39 GMT

Hi there.

The attached code changes the Icon Designer "Magnify" button into a pair of "Zoom In" and "Zoom Out" buttons. I find this much easier to use. Possibly you could combine this into the main release if you think it is appropriate. The attached code is based on the 612-3 release.

Cheers,
Darrin.

PS. I'm new to Ultimate++ and still learning my way around.
