I set shadow to 0.

Then state to 1 (ACTIVE).

Neither having any effect at all.

Guido

Clearlooks problem confirmed. For now, I have made a quick-fix:

Quote:

```
Color c = GetGTK(popup, 0, 2, "menu", GTK_BOX, 32, 32)[16][16];
if(!IsNull(c) && Diff(c, SColorPaper()) > 200) //!!! ClearLooks patch
    SColorMenu_Write(c);
```

(In fact, it is a test whether the Color is reasonable value..)
