ebojd wrote on Thu, 01 February 2007 12:08May I assume that the beta version has been checked into SVN <<https://upp.svn.sourceforge.net/svnroot/upp>>? I just tried to update the repository and it appeared that is was already up to date, and did not patch the system at all. I feel like I'm missing something...

Try now I always forget to update svn. Must investigate the time to synchronize it with uvs somehow..
