Subject: Re: static libraries? Posted by mirek on Wed, 07 Feb 2007 09:59:04 GMT View Forum Message <> Reply to Message

Well, yes and no.

Static libraries can get build during build process, but are considered an implementation detail. The final aim of U++ is to provide application or plugin - that is why you can get either .exe or .dll (or binary/.so in linux).

Of course, improvements here are considered. But so far we had to stay focused...

Mirek
