luzr wrote on Sun, 18 February 2007 19:21Try stack backtrace (latest ide is even able to copy it yo clipboard).

Alternatively, if possible (and not too long), post .dbf and package.

The dbf file is in the folder package. The package consist of a few code line.
Thanks a lot,

Luigi

PS: this afternoon I tried another library called Shapefil and I was able to read the file, so I would exclude a corrupted file.
