A bug in DbfStream related to encoding - unable to cope with UTF8.

Non-perfect quick fix (line 228):

```
void DbfStream::SetCharset(byte cs)
{
 charset = cs;
 byte dest = GetDefaultCharset();
 if(dest == CHARSET_UTF8)
  dest = CHARSET_WIN1252;
 codepage_cv = false;
 for(int i = 0; i < 256; i++) {
  codepage_uni[i] = ToUnicode(i, charset);
  codepage_map[i] = FromUnicode(codepage_uni[i], dest);
  codepage_rev[i] = FromUnicode(ToUnicode(i, dest), charset);
  if(codepage_map[i] != i)
   codepage_cv = true;
 }
}
```
