mr_ped wrote on Fri, 23 February 2007 15:00SDL Example:

Does not compile, missing SDL library.
It looks like it is intentionally left out from upp sources, and it should be added from the SDL zip?

Installing standard dev SDL package solved this one, works like charm.

Ok, enough of testing 2007.1 RC2 for today, I will try some more things during weekend, but I'm already looking forward to RC3 :/ or 2007.2+.
Looks like the upp needs much more polishing to "just work". But it certainly looks very promising.
