Novo wrote on Fri, 16 March 2007 00:36When I run applications compiled using my vc project files I'm getting Look&Feel like on the attached image. Actually, everything is flattened. When I push the "Host" button everything returns to normal.

I'm definitely miss something ...
Could somebody explain to me what exactly I'm missing?

Thank you.

I think .icpp is the cause. Frankly, not quite sure how to resolve this problem in Visual Studio.
