TCtrlLib;

TCore;

Just for your information.

TCore cannot be build because:

xml.cpp(1) : fatal error C1083: Cannot open include file: 'webmap_i/webmap.h': No such file or directory

TCtrlLib cannot be build because DocTypes is missing.

fatal error C1083: Cannot open include file: 'DocTypes/DocTypes.h': No such file or directory
