Hi I am having a problem with making a window topmost (floating above windows of other applications). With this function I can make a window topmost:

```
::SetWindowPos(GetHWND(), HWND_TOPMOST, 0,0,0,0, (UINT)(SWP_NOMOVE | SWP_NOSIZE));
```

But this other one you suggested does not work:

```
ExStyle(GetExStyle() | WS_EX_TOPMOST);
```

Additionally on linux the GetExStyle is undefined. It would be better to have a dummy function returning default values.
