ebojd wrote on Wed, 28 March 2007 15:10unodgs,

remember to replace the user copy of uppsrc with the system level sources which will be updated. I wasted a bunch of time with that one when I updated the system source, but never thought about what source tree my apps were being compiled off...

Hope that helps and is correct,

EBo --

Well, I guess, after syncing uvs and releasing U++ (albeit Win32 version) for more than year, Daniel knows how to compile TheIDE
