I do not see the list of the icons I've created in the iml file (windows rc4) . The icons are used correctly but I see just one, the first. Is there some new option that permit me to see all of them as before?

Luigi

Thank you for early bug detection.

The problem was SplitterFrame improvement:

<http://www.ultimatepp.org/forum/index.php?t=msg&th=2126&start=0&>

It should be fixed now; expect rc5 soon.

Mirek

P.S.: This release is really cursed...
