Hi,

1) Can I add this control in the ArrayCtrl??

2) Typing some caratcter, like: -, +, etc in this control crash the application. The default language is IT-IT.

3) After chosing the date, the control allow the keybord to type a long serie of space, or other chars, displayed as: 04/04/2007////////////////////////////////////.... in the control.

Mauro Bottizzo.
