luzr wrote on Thu, 05 April 2007 18:54Last week, Tom has added "accept_comma" to

```
double      ScanDouble(const char *ptr, const char **endptr = NULL, bool accept_comma = true);
double      ScanDouble(const wchar *ptr, const wchar **endptr = NULL, bool accept_comma =
true);
```

Hope this helps

Mirek

The problem regarded an old version of the library. This new methods should do the job.
Thanks!

Luigi
