Hi Guido,

guido wrote on Thu, 05 April 2007 17:37
But image chooser ctrl still absent in the icon editor

Guido

Which Package do you use?
Luigi has the i386 and i use the amd .deb package so both seem to work. the rpms are build by using the .deb files.

please check the version (Assist->About) should be 2007.1rc5

Bas
