manuel84 wrote on Sun, 15 April 2007 06:06I did it.
I thin this could be useful for other linux users: Go to Build -> Output Mode -> (Right side: release) -> use "shared libs" instead of "all static".

HTH

P.S.: Save your knowledge for my future problems! Despite this starting, I'm already loving TheIDE.

BTW, why have not you used precompiled .deb or .rpm files? They are supposed to preconfigure this.
