im using upp from svn repo

DeepClose not works, because in OpenDeep function
not passed open paramater to Open function

```
--- CtrlLib/TreeCtrl.cpp      (revision 51)
+++ CtrlLib/TreeCtrl.cpp      (working copy)
@@ -405,7 +405,7 @@
```

```
void TreeCtrl::OpenDeep(int id, bool open)
{
-   Open(id);
+   Open(id,open);
   Item& m = item[id];
   for(int i = 0; i < m.child.GetCount(); i++)
       OpenDeep(m.child[i], open);
```

Indeed, thank you!

Mirek
