What are your recommendations, when performing another Windows SDK (WEB Install) installation ? What choice should be useful to add ?

Not sure. But as you see, adding DB connectivity is useful

Mirek

Ok. Had you any possibility for giving some direction, when possible ? Looking that you had specified the OLEDB connection inside this example, probably you have all conditions to offer the direction to follow, to be possible to have the OLEDB installed...

Tks in adv,  
Sven
