
Subject: How to promote U++ ?

I see to promote U++ is to encourage those writing mfc and jdk be converted to u++. To this end, we need a demo. A good demonstration to prove that it is not very difficult to convert mfc or jdk to u++. But, there are two questions needed to be answered:

1) is it really not difficult to convert mfc or jdk to u++?

2) is it a compiled u++ application running better than those coded in mfc and jdk?

Below is the top ten most downloaded projects in sf.net . I am wondering whether it is feasible to put U++ to a real test by selecting one project below and translate it to U++.

(<http://sourceforge.net/top/topalltime.php?type=downloads>)

| Rank | Project | Downloads |
|------|---------|-----------|
|------|---------|-----------|

| | | |
|---|-------|-------------|
| 1 | eMule | 306,676,685 |
|---|-------|-------------|

| | | |
|---|---------|-------------|
| 2 | Azureus | 142,672,486 |
|---|---------|-------------|

| | | |
|---|-------------|------------|
| 3 | Ares Galaxy | 98,401,852 |
|---|-------------|------------|

| | | |
|---|------------|------------|
| 4 | BitTorrent | 51,850,559 |
|---|------------|------------|

| | | |
|---|------|------------|
| 5 | DC++ | 44,984,511 |
|---|------|------------|

| | | |
|---|----------|------------|
| 6 | Shareaza | 37,593,642 |
|---|----------|------------|

| | | |
|---|------------|------------|
| 7 | VirtualDub | 32,250,011 |
|---|------------|------------|

| | | |
|---|------|------------|
| 8 | CDex | 31,847,885 |
|---|------|------------|

| | | |
|---|--|------------|
| 9 | GTK+ and The GIMP installers for Windows | 26,724,204 |
|---|--|------------|
