ebojd wrote on Fri, 04 May 2007 14:47: I came to about the same conclusion... What I did for the specific problem I was dealing with is to pop up a graphical display with the generated images as part of the unit/regression testing. That way I can keep it where ever and unlink it at the end.

Is there some way to easily get at the UPPOUT variable from a user program? Is it set in the environment, or otherwise accessibly?

Thanks and best regards,

EBo --

No, never came on my mind

You can check for exe directory I think.
