Ok, found MySqlSchema and added this to my source-file:

```
#define SCHEMADIALECT <MySql/MySqlSchema.h>
#include "prohibisZA.h"
#include <Sql/sch_source.h>
```

and this to my header-file:

```
#define SCHEMADIALECT <MySql/MySqlSchema.h>
#define MODEL "prohibisZA.sch"
#include <Sql/sch_header.h>
but got these errors...
```

main.cpp

prohibisZA: 4 file(s) built in (0:07.36), 1840 msec / file, duration = 7609 msec, parallelization
100%

There were errors. (0:08.82)

Any further ideas?

Michael
