Subject: IsUpper bug?

I discovered that IsUpper for '_' return false. Because of that my function:

```
bool IsUpperString(const char *q)
{
 while(*q)
  if(!IsUpper(*q++))
     return false;
 return true;
}
```

did not work well for strings like NUMBER_10_AND_20 and I had to modify it to:

```
bool IsUpperString(const char *q)
{
 while(*q)
 {
  if(*q != '_' && !IsUpper(*q))
     return false;
  q++;
 }
 return true;
}
```
