I want to place a imagectrl and a button on a topwindow. This is how i tried to do it:

Add(closeBtn.SetLabel("Close AboutDialog").LeftPos(1, 20).TopPos(250, 20));

I got these error:

G:\Entwicklung\UPP\prohibisZA\aboutdialog.cpp: In constructor `AboutDialog::AboutDialog()':
G:\Entwicklung\UPP\prohibisZA\aboutdialog.cpp:13: error: stray '\184' in program
G:\Entwicklung\UPP\prohibisZA\aboutdialog.cpp:13: error: expected `)' before numeric constant
G:\Entwicklung\UPP\prohibisZA\aboutdialog.cpp:13: error: stray '\184' in program
G:\Entwicklung\UPP\prohibisZA\aboutdialog.cpp:13: error: expected `)' before numeric constant

What's the right way to do it?

Michael
