I get a timestamp by using this:

```
String timestamp = GetSysTime().ToString();
```

The result looks like this:

```
05/30/2007 20:55:38
```

How can i format these string that it looks like this:

```
30.05.2007 20:55:38
```

```
?
```

Michael
