hi,

i think it's time to put some restrictions on the wiki...
this old version http://www.ultimatepp.org/wiki/index.php?title=Main_Page&amp ;oldid=1383
looks pretty empty, but a click on 'edit' reveals that there are lots of hidden references to sex-sites...
i took the liberty of restoring former glory, but anyhow every stupid script can change that ... so, maybe activationg the password option is not tooo bad of an idea,

kind regards, abductee
