When I try to run theide on Windows 98, I get an error - "A required .DLL file, PSAPI.DLL was not found"

I found this thread with a similar problem:

[&&srch=PSAPI.DLL#msg\\_181](http://www.ultimatepp.org/forum/index.php?t=msg&goto=181)

Is there a version that will run on Windows 98?

Thanks.
