Compilation error:
----- HomeBudget (GUI MAIN MSC71 DEBUG DEBUG_FULL BLITZ WIN32 MSC) (12 / 12)
HomeBudget.cpp
HomeBudget.rc
Error running process: The system cannot find the file specified.
Command: rc.exe
/fo"d:/upp705dev3/out/HomeBudget/MSC71.Debug_full.Gui.Main\HomeBudget$rc.obj"
/i"d:\upp705dev
3\examples" /i"d:\upp705dev3\uppsrc" /i"C:\Program Files\Microsoft Visual C++ Toolkit
2003\Include" /i"C:
\Program Files\Microsoft Platform SDK\Include"
"d:\upp705dev3\examples\HomeBudget\HomeBudget.rc"HomeBudge
t: 1 file(s) built in (0:06.10), 6109 msecs / file, duration = 6141 msecs

There were errors. (1:36.70)

It is a fresh installation on WinXP Pro:
upp-mingw-705-dev3.exe
To compile without errors - from files list remove file (Alt+Delete):
HomeBudget.rc
This file is not properly handled by the compiler and seems it is not needed.
Maybe somebody could explain this?
I hope it helps somebody.

Michal
