Subject: Calendar does not update month/year on 'gray'-number selection

Am using Calendar in a Layout and found that it does not
move the month or year forward or backward if one of the
grayed numbers are clicked.

I 'fixed' it by adding 'UpdateFields()' in DateTimeCtrl.cpp line 281
in the function:

```
void Calendar::LeftDown(Point p, dword keyflags)
{
 ...

 if(PopUpCtrl::IsPopUp())
 {
  sel = tm;
  Deactivate();
  WhenAction();
 }
 else
 {
  UpdateFields(); /*<<<---added here */
  sel = tm;
  WhenAction();

  if(refall)
  {
   view.day = 0;
   Refresh();
   ...
 ...
}
```
