Subject: Patched X11 focus problem....
Posted by mirek on Mon, 22 May 2006 20:36:23 GMT

Problem:

TopWindow x;
x.Open();
TopWindow w;
w.Open();
x.SetFocus();

- focus did in most cases end in 'w'. One place where it was problem is pressing F3 (find next) in TheIDE withou find dialog open.

Fix is quite dirty, like everything in X11, so maybe it will cause other problems...
