Subject: Simple trick to have have bot JSON and XML for a class
Posted by mirek on Tue, 03 Apr 2018 15:46:22 GMT

I needed class to support both JSON and XML. Initially, I have implemented both Xmlize and Jsonize but that is tedious.

Then I have found an obvious solution to the problem:

```
template <class T>
void MyClass::Ize(T& io)
{
 io
  ("min", uMin)
  ("max", uMax)
.....

}

void MyClass::Xmlize(XmlIO& xml) { Ize(xml); }

void MyClass::Jsonize(JsonIO& json) { Ize(json); }
```

Perhaps this will help somebody... :)

So simple!!!

 8o 8o 8o 8o

We could deprecate XmlizeByJsonize()...
