Hi,

I think I found a bug.

Under certain conditions, clicking on a checkbox does not happen.

What happens ?

See it yourself.

Click on the checkbox min max Check.

I attached an example.

Thanks.

.....

.....

Works in Win10 as expected. Where do you click?

I have Win 7.

I click checkbox next to on min max label , rightmost checkbox in the row.

I click checkbox next to on min max label , rightmost checkbox in the row.

No luck. Can you post screenshot?

Maybe draw a place where do you click.

I downloaded the latest stable version of upp and the bug disappeared.

It seems that you fixed it already.

But you did not.

It was a usage problem.

Just the bug was not visible.

The problem was due to incorrect use of anchors.
