Hi,
How can I turn off sorting?
ArrayCtrl param;
params.ToggleSortColumn(0);
That turns it on.
How can I turn it off?

Thanks.

I think I found out..
The original order is lost.
SO that is why there is no resetsorting or nosorting option.

Here is a patch for this which at least partly, solve the prolbem

A new function in ArrayCtrl

```
void ArrayCtrl::ResetSorting()
{
    for(int i = 0; i < header.GetCount(); i++)
        header.Tab(i).SetRightImage(Image());
    allsorting = false;
    sortcolumn = -1;
    sortcolumnndescending = false;
}
```
