Hello,

As I reported here <https://github.com/ultimatepp/mirror/issues/4> ,

Below properties (height, lineheight) seem to be removed from CommonFontInfo some time ago. Yet they are still used in XFTGetFontInfoSys() function. This leads to a compiler error when the NOGTK mode is enabled.

mirror/uppsrc/CtrlCore/DrawTextX11.cpp

Lines 118 to 119 in cf97a1a

```
fi.height = fi.ascent + fi.descent;  
fi.lineheight = (int16)xftfont->height;
```

Best regards,
Oblivion
