Probably, it will be necessary to add

sudo apt-get install libgtkglext1-dev

in U++ install instructions.

Hello Koldo,

I added separate section to our POSIX installation guild:

4. Additional dependencies
4.1 OpenGL
To develop application that needs to use 3D graphics you should download following packages for your distribution:
libgtkglext1-dev # Debian like distribution

It should be available tomorrow.

Sincerely,
Klugier
