Hi,

The MSC15 compiler reports the following error:

C:\upp\uppsrc\Core\LangInfo.cpp (495): error C2088: != not allowed for struct

The code:

```
const LanguageInfo& GetLanguageInfo()
{
    if(!sCurrentLangInfo) // the line with error
        SyncLangInfo___();
    return *sCurrentLangInfo;
}
```

Best regards,
Victor

Hello,

From which version of the visual studio MSC15 came from? Yesterday, I compiled Core with compiler from Visual Studio 2019 and it works fine.

Sincerely,
Klugier

That is VS2015. It is compiler bug, but workaround is simple. Please test trunk, Victorb.
